IPM STATE WORKSHOPS

For over 40 years, the Inner Peace Movement® Programs have firmly established itself across the United States and Canada and is available in 37 countries around the world. IPM has helped people define their inner values, share on a soul to soul, person to person level, and respect that they are the architects of their own fulfillment.

The spiritual needs of people are greater today than ever before. All over the world people are asking the same questions:

- “Who am I?”
- “Where did I come from?”
- “Where am I going”

It is an innate drive inside a person to strive for the answers to these questions.

State Workshops give you opportunity to regroup the reason why you are involved, help unfold your Intuitive part in order to love the challenge of some of your opportunities and learn to work efficiently with program in your community.

COURSE 516 AMAZING CONCERN: LOVE IN ACTION

- Regroup how far you have come since your involvement in one of the ALC programs.
- Be more aware of your feelings when you offer such helpful programs to help souls in their personal growth.
- Understand the Law of Attraction and the power of united energies.
- Reinforce your pride in your “product” which is bringing tools of spiritual awareness and freedom to people. Clarify these tools and services available.
- Obtain a simple plan for you to share your “spiritual business” with your apprentices and other journeymen.

Workshop Timing

Once you are able to trust your sensitivity, you can accurately discern the environment. You need clear direction because the more sensitive you get or you are, the more you are like a ship without a rudder. The more commitment you have, the more you need a close relationship with your guidance. You need to work more closely with them.

SATURDAY
