## "Unstoppable Waves of Spirit"

### The 2017 International Summer Retreats in Osceola, IA

The summer season is upon us! July is a very special time of year for Wayshowers around the world. It is a time to gather in Osceola, IA for the **2017 International Summer Retreats**.

The spiritual theme this summer is **"Unstoppable Waves."** What an amazing vision! Like the waves of the ocean, my soul purpose is constantly in motion!

*Here are some highlights:*

**WEEK 1 June 26-30:** *Sponsored by Peace Community Church International (PCCI)*

Summer Camp has been a pivotal energy for PCCI programs these past few years. This year continues the expansion with a week of **Unstoppable Waves of Healing**.

Begin each morning with yoga, meditation, energy and healing techniques on our beautiful outdoor pavilion deck. The morning session will feature *Peace: My Inevitable Reality* and finding your "Heaven On Earth!"

PCC training in program presentation and other healing courses, is scheduled for the afternoons, including two Family World programs — 8770: *Man and Woman, Roles for the New Age* and 8752: *Universal Love in Personal Relationships*.

On Friday June 30, Tiger Coll will lead a day of immersion into **Spiritual Ten Commandments** pioneered by Dr. Francisco Coll's *Spiritual Ten Suggestions*. Planet earth is ready for a new

kind of commandment and with this reworking of an eons-old biblical tradition!

Instead of "Thou shalt not," The New Spiritual Ten Commandments express positive action, good will, and benevolence. Instead of taking concepts that stimulate a beholdment to the outer rules, we will be focusing on our inner truth and spiritual growth.

Throughout Week 1, you will understand and release religious concepts creating limitations in the soul. Through many healing techniques, you will be cleansed and anointed as the renewed spiritual "Real You!"

Become an unstoppable healer for yourself first, and then assist others!

**WEEK 2 July 3-7:**  
*Sponsored by Inner Peace Movement International (IPMI)*

In Week 2, experience **Unstoppable Waves of Inspiration in Action** – your spiritual freedom, self- leadership, and the joy of sharing the Big Picture of spiritual reality with others. Delve into expression from the wealth of your inner wisdom and spiritual thrust.

Week 2 offers personal expansion and professional training through presentations, second-step programs, submersion workshops, creative energy techniques, course instructorship and Profile Consultant training.

WAYSHOWERS COMMUNITY FELLOWSHIP

## WCF President's Message

Dr. Susan Kellogg

I spent the evening in a musical meditation with *Celtic Woman*, the glorious group of Irish singers, dancers and musicians. Their new program, *Voices of Angels*, was a heavenly tribute to the power of unifying, healing energy.

*"All around me...I know there are angels everywhere."* ♪ That inspiring song has an important message. With all the drama in the political world lately, I

sometimes need a gentle reminder that every soul is living their thrust in some way with the backing of their angels. I just need to remember to live my thrust, and mind my own business.

Tiger Coll shared a thought the other day that has stayed with me. "The confusion of others is not my business." What that meant to me was not to get so wound up in the ups and downs of my social environment that I allow myself to get distracted from what I really need to do. Translate that to "turn off the news, the chitchat, and get involved in an opportunity to be in my true feelings and be of service.

So back to the concert. It reminded me of how much I love to sing. It is something that frees me to share the heavenly energy of "D-Zone" while on planet earth ("A-Zone"). It is one of the simplest, most direct ways to stay cleansed. So, I have to ask myself, "Have I taken as much time as I need to sing?"

The answer sometimes is a definite "No." I can insert other positive habits that have to do with investing my time. Take more time to cleanse myself, take time to regroup, take time to plan, take time to set new goals. Time is of the essence.

WCF is sponsoring a monthly online Webinar and Teleconference regrouping on the *Seven Chakras* to help people take some time to do some personal healing and outflow. The 8-session series began in May and continues through December. The response to the first two sessions — on the *Self-Acceptance Chakra* and the *Wants Chakra* — has been so positive. We Wayshowers NEED to stay "tuned in and tuned up!" This is one way you can take action to back yourself. To preregister for future webinars, go to the WCF website.

The **Summer Retreats** in Iowa are just around the corner, beginning on June 26. Going to camp has been an annual investment in my spiritual, mental and physical well-being. Dr. Francisco Coll shared that as sensitives, we need to attend a camp program at least once a quarter to stay fully regrouped in our energy, direction and life purpose.

A trip to camp puts me back into the deep waters of my soul self. Experiencing the beautiful, healing, natural environment, sharing great fellowship with other souls on their Wayshower path, regrouping the depth of my spiritual wisdom and inspiration is truly a NEED. My energy matters!

***To your spirit and the joys of Summer Camp!***

## Regrouping On My Self-Acceptance

*"I took the first WCF Chakra Webinar class on **Self-Acceptance** and ended up experiencing a key insight a few days later. A few minor health issues indicated to me that Self-Acceptance has been a weak area for me, especially as I made some major transitions in my life in the last five years. A few days after the chakra class, I was approached by someone who had what I perceived to be an extensive "to-do" list for me. As the "to-be-dones" rolled out, I felt my shoulders tighten and I felt very tense. Then, I remembered Self-acceptance! Accept, at least, what the individual has to say. Accept my role in it. Accept what I've created. Just the feeling of "acceptance" and those thoughts helped me relax*

# Wayshower Experiences

*A Wayshower inspires others by their example of being loyal to themselves and their spiritual purpose.*

## Unexpected Encounters On My Spiritual Journey

**Carolyn Clarke**

Recently I had the opportunity to meet a Wayshower whose way of sharing, understanding spiritual contracts, and investing was very meaningful to me.

I have just re-located to the Daytona Beach area of Florida. I am and have been very excited about this transition in my life. After being here a couple of weeks I discovered

I needed extensive repairs to my car. This was not in my budget. New to the area and businesses, I relied on my sensitivity to determine a repair shop.

The location was not the most modern facility. There were vehicles everywhere, several in different steps of repair. When I received the estimate, I was shocked at the price.

On my way into the office to further discuss the repairs, I stopped to speak with the mechanic. I was very drawn to him. Although he was obviously busy, he took a moment to talk with me. His name was Andrea, and he was from Argentina.

I asked if he enjoyed his work, and he enthusiastically replied, "I love what I do"! He said he was happy to be in the area and he had been here several years, but was not able to return to Argentina very often. He shared a bit about his country; I could feel the love and respect he had for it. *(I have 2 angels whose last incarnations were in South America. One was from Argentina, and the other had traveled there. No wonder I was drawn to him!)*

I had the repairs done to my vehicle, and felt good about the people I had encountered at the shop. A few days later, however, I had another problem with my vehicle. Back I went, thinking they had not properly repaired my car. I must admit I was a tad aggressive in my behavior.

### **Unexpected encounters are everywhere.**

I waited for them to check out the problem, sure they had not completed the job properly. After some time I was presented with another estimate. I was definitely not happy with the results, and had numerous questions regarding the work and connections to previous repairs.

Mike, the shop manager, with whom I had had an immediate affinity, patiently explained the car systems to me, their connections as well as interactions. Reluctantly, I listened. Short version, when one system is repaired, and functioning at full capacity, it can put additional pressure on another system where there is a weakness. Although I know nothing about vehicles, I could understand this.

I decided to have the additional repairs completed. Mike informed me this was a 2 day job and I would have to leave my car. I told them I would need a loaner vehicle. After some negotiations, this was arranged.

The repairs turned from 2 days into 4 and Mike called to tell me I could pick up my car. It was late in the day, and Andrea was still finishing up when I arrived. so I sat and shared a little with Mike. I found out he is Muslim, and has lived in several countries.

**Carolyn (far L) enjoys Skit Night at Summer Camp in Osceola IA with (L to R) Patrick Kilhenny, Estelle Small, Dorinda Fox and Diana Ringo.**

As I shared with him the unexpectedness of the repairs and the cost, he listened intently, and reverently replied, "Have you ever thought that possibly before you were even born, you made a contract with Andreas that you would help him feed his family at some time if he needed it?"

"Maybe Andreas needed to do this work to have a paycheck to buy groceries for his family, and you are fulfilling that agreement? I do believe this is the way life works."

That gave me much food for thought regarding investing.

I hope to interview Mike in the future and learn more of the Muslim beliefs and way of life. I know from my experience with Mike, he lives his policy of being reverent to people. He is a true Wayshower with much wisdom.

I have learned that unexpected encounters are everywhere in daily life to uplift and inspire us, if we are open to learn and grow.

## IPMI President's Message

*"I volunteer but I really need the courage,  
They say that I can be a leader right away...  
I find that I'm a branch out in the forest,  
But the courage of lion I must be;  
I gather wisdom from my many lifetimes  
and endeavor to share it spiritually."*

The above is a part of the first verse from the **Songs of Spiritual Plateaus**, the **2<sup>nd</sup> plateau**, in fact.

**Dr. Dorinda Fox-Rentz**

The first plateau is **Awakening**. Do you remember your own spiritual awakening — to your sensitivity; being introduced to and connecting with your angels/spirit guides, and your spiritual purpose? How joyful and exciting that time was in my life! There was such an eagerness to explore, uncover and grow more.

The **2<sup>nd</sup> plateau** is **Apprentice**. It speaks to beginning to reach out to find others who are awakening, the realization that I can grow further from my own experience sharing with others spiritually, and the courage it takes to open and stretch myself in that way. It's very fulfilling to offer practical tools others can use to find their spiritual connection and purpose, once I have grown past the fears and habits that inhibit spiritual expression.

***"Start me with 10 who will look deep within  
and I'll soon give you 10 million more!"***

**From the IPM Leadership Song**

Other spiritual plateaus include **Journeyman**, **Transition** and **Affluent**. Each plateau follows from the first and speaks to a state of consciousness, a way of living and acting that describes a level of involvement, education, experience, wisdom and maturity. Dr. Coll described a universal growth pattern in the plateaus that points directly to spiritual growth and leadership, but can also be applied to any human endeavor or profession.

**The IPM International, Inc. Board of Directors in May considered and adopted levels of IPMI membership that parallel the spiritual plateaus.** As a non-profit educational organization, IPMI gives opportunity to anyone desiring to find and fulfill their spiritual purpose utilizing the methods advanced by Dr. Francisco Coll.

Each level of membership, from **Participating Member** (Level One) to **Level Four** outlines and expresses specific Vibration/

Qualities, opportunities for Involvement, the necessary Pre-requisites and Benefits relating to the progression of the Spiritual Plateaus. Membership in IPMI outlines and leads an individual in a path to education and standards for their spiritual evolution and service to others. This is IPMI's distinctive service as a nonprofit organization.

***Do you remember your own  
spiritual awakening?***

I urge you to take a look at the member levels; see where you fit, and get involved. And if you joined at the Participating level, you can now join at the level fitting your experience.

IPMI also offers **Volunteer opportunities** to its members for practice in sharing spiritually through the **Communication Rails** available at local, state, regional and national levels. For information on these opportunities, visit the **Volunteer section** of the IPMI website at **www.ipminternational.org**.

You can practice planning and promotion skills and team with others to expand and coordinate spiritual programs in the USA. See the **Member section** for protected forms and information. **Your password** to access forms is **"ipmers."** Get on board!

See you at Summer Camp in Iowa!!

## Taking Opportunity with IPMI

After I got involved in the community weekly meetings where I got to learn new techniques and more about communication with myself and others, the group leader announced: “Who wants to learn more about working with energy?” I immediately put up my hand. I was loving the opportunities for growth I was already experiencing, but I want to take part in anything that would assist me to grow faster.

I ended up at a local IPM leadership planning committee. We were discerning the facts of upcoming introductory programs. I remember that my husband at the time, who was also a part of the community program, and I discerned to back a lecture that no one else had checked out to be a part of. It was communicated that sharing the facts of the program was easy, so we followed the steps and soon found ourselves sharing mostly from the Man and Universe book, and were thrilled to be sharing our experiences.

### *Non-involvement is not a way to expand.*

We went on to take opportunity in our local area in promotion and administration and working with the rails of communication. We learned it was a step at a time. I learned about energy, healing the environment, and most importantly, being willing to take opportunity as a vehicle to grow.

It has not changed since that time. I find that non-involvement is not a way to expand. Of course, there are times that the opportunity is not for me due to timing, or another opportunity that more fits with my thrust, etc.

One leader that I greatly admired told me that she made all of her decisions by asking “Is this part of my life purpose?” Then she checked with her team of guidance and her own feelings. If she received a “yes” answer, she went further with fact finding; with the “no’s” she passed. I saw this leader travel around the world sharing the message that is in the Man and Universe book.

# Spirit Is Our River™

## IPM INTERNATIONAL INC.

I learned a lot about Trust from her.

Dr. Coll had a great idea with the establishment of the rails. I got great training in communication, learning systems, responsibility, and leadership.

I received training that I could implement in my daily JOB as a physical therapist, in my relationships, and in my goal setting. I feel that I could not have afforded that type of training in the market place; it was available to me for making a commitment to be of service.

*Dr. Kathleen Ellis*

The clarity of learning about my goals, wants and needs, has helped me to create the dream job that I recently released after 20 years, and guess what, I earned a pension that pays me nicely for the rest of my life. I still cannot believe that someone pays me to not rent my time. Few folks are retiring with pensions now days. Amazing! I learned to be in the right place at the right time.

There is something to taking opportunity, I have seen it time and time again. The extra energy is amazing and a bigger picture is a result. I have learned that there is plenty of opportunity in life and that I just need to discern and act.

Some involvement is always better than sitting on the fence waiting for something to happen. I have learned to give myself permission to change my mind but to get involved and practice regrouping what I am getting out of it. I do not have to be a slave to the opportunity, just enjoy the ride and be alert to what I am learning.

## Networking With My Apprentices

**April Azzolino**

Often after I have come back from ALC summer camp I do not know my direction. This was my case again last summer. Since my own energy had just had a renewal, I was reorganizing my soul.

I asked myself, "What are my needs? What are the needs of the people I serve in my spiritual business? What programs will be fulfilling for the both of us?"

Sometimes this takes weeks for me, in getting a hunch and feeling. I find I have to have lots of patience with myself as I am having an internal dialog with spirit. Then the day came. I was reviewing programs, mini-courses, and I saw an Immersion Workshop program I had never taught but trained on a couple of years ago as a consultant — *Mastering My Psychic Energy*. I read the instructor notes and started sensing I was spiritually ready to instruct this full-day program.

I really wanted just three or four people to experience this with me before I ever made it public. I invited individuals who attended a recent New Spiritual Horizons Group to a gathering for appetizers and cocktails, and to socialize on how our lives were going. While we were together, I shared I was offering an immersion course, at a very special pricing of 50% off for anyone who wanted to attend this once-ever opportunity. Two individuals committed instantly.

Next, someone from Facebook who in the 80's was involved in the IPMI programs found me and I invited her to Starbucks for coffee. Over coffee we shared many insights and I shared about this immersion workshop. She told me she would love to be a part of it. A few days later she asked me if a friend could also come who had been a part of IPMI also. Now, I had four committed participants.

I had an Eventbrite event coming up in August. One of the new attendees texted me that her dog had gotten sick and was not able to come. So, I asked her if she would like to meet for coffee sometime in the future. We made a coffee date. We got to know each other and then I again shared about my immersion program.

I sensed this person was a old soul with a young body. She was committed to coming. A few days later she texted me that she wanted to invite a friend as well. Now, I had six people for my program

I had contacted another individual for coffee who recently had experienced a number of personal private consultations with me. I wanted to see how she was doing. Over coffee, I shared about my immersion workshop with her and she decided she was ready to go deeper in her spiritual evolution.

A few days later, she emailed me she had a friend who wanted to come. I asked her to have her friend call me. I checked her energy and invited her to attend.

During this time I had sent some private messages and emails to people I thought would have interest. Four more individuals hopped on this event. One gal drove from St. George, Utah, two hours away. Kathy said, "April, I always know I will grow when I attend your workshops. It is never a waste of my time." I appreciate hearing this to my core.

***I am growing, evolving by doing  
this work, one step-at-a time, one  
brick at-a-time.***

Twelve people attended my largest event yet. By building myself and my business, some of these individuals went and promoted me to their friends.

Networking for me is step by step, brick by brick. A few participants wrote me several days later and shared different messages: "Your workshops are always inspiring." "I learn how sensitive I really am." "Your workshops really speak to me and I know myself better."

What did I learn during this process? I learned that I have value, my programs have value, and that spirit backs me when I wait for the hunch, the feeling. Sometimes I can hardly put a word to that inner knowing. But it works. I am growing, evolving by doing this work one step-at-a time, one brick at time.

## Why I Love SMP

I am currently one of the Spiritual Monitoring Plan® (SMP) Wayshowers who oversee the SMP program. I have been involved with SMP since 1979 and it has been my lifeline for enlightenment and my continual spiritual unfoldment all these 37 years. I have found solutions to heal anything that gets 'off' in my physical body, so I don't get sick. Just having the 4,000 Astro Soul angels backing my angels has given me boundless, unlimited, enthusiastic energy every day.

I get quick clear insights into all my situations, find positive solutions for the challenges in my life, discern what is me and what is not me, accept the good kind loving part of me as the real me and look at everything in my life as I have attracted it to learn something about myself from it. Since I am the most important person in the universe to myself I place the highest priority on investing my material abundance in me, my state of consciousness. I can't afford **not** to be in SMP.

***I place the highest priority on investing my material abundance in me, my state of consciousness.***

I came to Planet Earth to learn about myself and to be of service. SMP is the tool that has helped me the most to learn about myself and to provide the most loving, helpful, unconditional, spiritual service.

I am 100% responsible for all my situations. They are in my life as my lessons to learn from in this school I am attending called Planet Earth. I live and love my spiritual purpose.

The techniques and tools offered through the SMP program are the ones Dr. Francisco Coll used to keep himself regrouped when he was here so he could be of service to the world. He passed these techniques on through the SMP program.

My projection of my energy for the following month gets me prepared in advance for what is to come. Timing is everything. I get helpful hints about what my guidance will be working with me on and some pitfalls to be aware of.

I learn which blocks from the maze will be stimulated and solutions for not getting caught up in those old patterns. I learn more and more of the positive qualities I have mastered through lifetimes and know how to make them part of my daily life since they are the real me.

I learn how to live in the present moment and to enjoy it to the fullest. I have come to appreciate that everyone and everything is here to help me grow. The universe is backing me to accomplish all my wants and needs. I have learned to love and respect everyone who is also here learning and growing and doing the best that they can.

# Spirit Is Our River™

## IPM INTERNATIONAL INC.

I have learned to trust myself and my first impressions which come from my guidance. I have learned how to get everything I want and to discern my wants from my needs.

I have learned that it's possible to be happy 24 hours a day. Having a positive attitude is my key.

***Dr. Sandra Adler***

From the La Familia Nuestra (LFN) calendars, I know what the energy will be ahead of time and the influences in my environment affecting Planet Earth. I can handle them with ease because I know what is me and what is not me.

My Enthusiasm Scale tells me how much I am living my thrust each day and what can pull me off my pivot point – people in my environment or concepts. This is how I attain that balance so my enthusiasm is always high and consistent.

I can see my spiritual progress as I grow each month. During the month my guidance remind me of something Dr. Coll said to me or a concept I learned in an ALC (Americana Leadership College) course or from a profile or one of my Home Study Program lessons. My angels have all this extra backing so I get the messages to keep me on track all month.

Every month I expand my state of consciousness by using the tools and techniques offered through SMP. I have all my answers inside me. This is my Personal energy. When my Personal is solid I have no troubles in Social or Business. When I pass on I will take my Personal with me. Social and Business will stay here on Planet Earth with my body.

That's why SMP is so valuable to me. It's like having a spiritual profile, attending a group meeting, taking a course or being in an International Regrouping retreat every day of my life. There is no end to my growing. I am in tune with my universe; I love every minute of it. Thank you SMP. Thank you Francisco, for providing these tools for me, and I thank myself for using them for my benefit.

For more information on how to be involved in the SMP program, please contact the ALC office in Iowa at [alc@alcworld.com](mailto:alc@alcworld.com) or 1-800-336-8008. They will forward your inquiry to the SMP office.

PEACE COMMUNITY CHURCH INTERNATIONAL

## PCCI President's Message

**Dr. Paul Kellogg**

Among the definitions of the action “to minister” is to “take care of.” In the standard practice of a church community, the Minister is often seen as the shepherd of his or her flock tending to their needs – being a conduit to God and providing answers from the outside.

At the basic root of PCCI ministerial services is to help or assist people to help themselves, tune into their inner guidance, inspire them to find self-powering solutions. We foster the experience of oneness with God or the universe and that all of our answers are right inside.

If you are a current Ordained Minister with PCCI or want to reactivate or if you are aspiring to receive the training to become a Minister, you could not ask for a better timing to be of service. At a recent spiritual expo, I saw just how much people are searching for self-understanding, healing, assurance and belief.

The booth personnel were very positive with each person, helping them to see the good that was already in their lives. People walked away smiling, nodding “Yes” with a look of directed enthusiasm to grow some more! Our kind of ministry!

In 2017, the PCCI team is helping to craft a new series of courses that will expand the training one receives in 622: *Ceremonies and Procedures of Peace Community Church* to assist ministers in refining their skills in offering ceremonies.

**622 Part A** will be Union Ceremonies of all kinds – weddings, civil, etc. and will be presented at this years’ Summer Camp, emphasizing how to help people have their best ceremony.

**Part B** will work with any kind of Transition such as Memorial and Funeral Services, and other kinds of changes for which an individual wants backing.

**Part C** will include other individual based ceremonies such as baptisms, personal commitment, etc.

**Parts B and C** will be crafted this summer and fall and it is being planned that all three parts are offered at the 2018 international Regrouping.

With these courses we will continue to upgrade and maintain our professionalism as well qualified Ministers that offer the highest standards of spiritual work – works that inspire unity within families, differing faiths and backgrounds, coming together to support a union, a new child and more.

It truly is a privilege to share in teamwork with Spirit as a Minister! Let us know how we might assist you!

## A Memorable Wedding

**Peace Community Church International** is founded on the principles of respect for all traditions, acknowledging the spiritual truths found in all. Focusing on the *Christ Spirit* of Christianity, a PCCI minister has the opportunity to work with a couple to craft the kind of wedding ceremony that will be most meaningful for them. It can include their own testimonials, choice of music, unique techniques that incorporate the creative spirit of the partners, etc. It can also be offered in the traditions of the chosen spiritual beliefs.

**Sondra Kellogg and Chris Allaire and happy wedding team!**

My daughter Sondra and her husband Chris Allaire blended some Celtic inspiration, some light-hearted moments with a recitation on "Marriage" from *The Princess Bride* (provided by her brother Matt!), and the inspiration all with the backing of the two PCCI ministers (Richard Lassiter and Anne Kellogg). It was heart-felt and fun!

*"Last week I heard from a couple in Northern Virginia. They credit each other's love and support for their recovery from serious illnesses in the recent past. I reached out to them on Facebook and shared how inspiring their relationship is. Jodi responded, 'We will celebrate our anniversary this month; it's been 22 years since you married us.' Although I can take no credit for their lasting marriage, it is fulfilling to know I was a part of their commitment to each other. Their outdoor, nontraditional PCC wedding was a memorable experience for them and the more than 50 people who attended. I loved being part of their special day."*

## THE 6 Ws of PCCI

Breaking things down in the Who, What, When, Where and Why and the HOW during planification for upcoming projects comes naturally to many readers of *Spirit Is Our River*. The process is equally helpful in better understanding of communications heard or read.

**Estelle Minor**

I was inspired to break down PCCI's Vision into those W's (you may have your own version):

### The WHO of our Vision:

- 1) "a worldwide community"
- 2) the "two percent of the earth's population (who) live by inner guidance"

### The WHAT of our Vision:

- 1) "share spiritual cleansing"
- 2) "share healing fellowship"

**The WHEN of our Vision:** "Evolution"; i.e., on an ongoing basis, at all times, eternally

**The WHERE of our Vision:** "In all walks of life"

**The WHY of our Vision:** To increase "spiritual awareness, leadership and service" (in both the two percent and the rest of the worldwide community)

**The HOW of our Vision:** "Through spiritual awareness, leadership and service".

My understanding in the bigger picture of PCCI is that the WHO is made up of Affiliates and participants, the WHAT is its Mission, the WHEN is its Vision, the WHERE is its Core Values and the WHY is its Creed. The HOW is up to each of us. May In-Spiration guide our creativity!

## One Step At A Time

**Julia Santiago enjoys sharing one-on-one.**

I thank my Guidance for the opportunities they send me, in my sage years, to share the spiritual gifts I have received this lifetime. When I heard my first lecture thirty years ago, I promised myself I would pass on the message that had changed my perception of life and the role I was meant to play in it.

Everyday, I ask my helpers to send me opportunities to outflow. They consistently

open doors for me to receive those searchers who are being led to discover their true nature and their own personal Guidance.

During the past two weeks, souls I have met with have been able to receive energy healing, the 1001 profile, 1002A profile, Process session, and PMM group work. I share the lecture before each profile and am always filled with joy as I watch their openness, enthusiasm and sometimes relief with what they are hearing.

Recently the participants in *Course 4091: A Mini-Course on Tapping the Sources of Your Spiritual Alarm System*, were reminded to follow their true feelings, their life purpose, and their outflow. Regrouping and avoiding the alarms that may interfere with their evolvment helped them resolve to use the tools they had learned.

**Julia's daughter Julia Maria and her grandchildren Micaela and Julian.**

The key is to stay relaxed (cleansed), regrouped, and outflow to make their journey more fulfilling and secure.

As we move forward, the New Jersey Team eagerly prepares for a tour in our area by Australian leader John Shortell. It will open the energy for opportunities to be the Wayshowers we were meant to be.

I am "having fun, one step at a time!"

## WISDOM FROM AN OA WAYSHOWER

*"The greater danger for most of us lies not in setting our aim too high and falling short; but in setting our aim too low, and achieving our mark." - Michelangelo*

No dream is unrealistic. Surround yourself with supportive, like minded people and watch what happens. Gratitude and humility turn dreams into reality quicker than you could ever imagine.
